PROJECTS

App Development
As part of a course at the university, I was part of a team of six that developed a weather app tailored for the visually impaired.

Strategy Work
Together with two fellow students, I developed a series of strategic recommendations for a small and innovative company named Fjord Miljø. The work involved analysis, interviews, and evaluation of strategic alternatives.

Portfolio Website [[Link]](Link)
Developed and designed a personal portfolio website to showcase my projects and experiences.

EXPERIENCE

Elkjøp - Salesperson — October 2020 – May 2022

- In my role as a salesperson at Elkjøp, I learned to work under pressure. Results were of high priority, and competition was a central part of the work environment.

DNB Corporate Banking - Corporate Advisor — May 2022 – November 2022

- As a corporate advisor at DNB Corporate Banking, I worked on Anti Money Laundering (AML)-related tasks. I gained experience working on a large joint project and developed strong customer service skills through phone and email communication.

University of Oslo – Student and Research Assistant — January 2023 – Present

- As a student assistant at the University of Oslo, I teach the courses "IN1030 Systems, Requirements, and Consequences" and "INEC1821 Digital Economy, Organization, and Management." My tasks include holding group sessions and providing feedback on mandatory assignments. As a research assistant i conduct data analysis and assist in the writing of research papers.

VOLUNTEER WORK

Digitus - Board Member — June 2023 – December 2023

- As a board member of the student association for my study program, I actively participated in organizing events and other activities that contributed to strengthening the academic and social student environment.
